

The Museum's Education Staff can host Family Science Nights or Science Days at your school or at the Museum or Arts and Sciences!

The program lasts 1.5 hours. We will provide 2 Curators and 15 hands-on science stations:

- Circuits
- Magnets
- Fossils/Animal Classification
- Newton's Laws of Motions (1st, 2nd, & 3rd)
- Microscopes
- Hand Battery
- Center of Gravity
- Van De Graaf Generator
- Laser Harp
- X-Ray
- Potential and Kinetic Energy
- Sound Effects
- Recycling
- Tree Rings
- Rotation Station

Before choosing your hands-on science stations, check MOAS.org to learn about which stations will work best for your grade level.

*Some stations are subject to change

KELSEY HANSEN
kelsey@moas.org or 386-255-0285 ext. 312

Science Night Pricing

- \$450 for 15 stations
- \$525 for 15 stations and the portable planetarium (seats approximately 30 students and inflates like a bounce house. Requires space of 30 feet across and 13 feet tall)
- \$625 for 15 stations and portable planetarium (out of county)

Science Nights at MOAS

\$450 Students, parents, and teachers can plan a night at the Museum as their Science Night. It includes the West Wing, Children's Museum, Root Family Museum, and Planetarium shows. Museum rules and guidelines apply to everyone who is attending the Science Night.
