**Extended Care Program**

Extended Care Program will be offered from 4pm - 5:30pm for $25 per week. Extended Care students picked up after 5:30pm will be charged $10 for every 10 minutes of additional care provided. Schools make every effort to find an alternative placement for a student in another session if cancellation occurs. Reservations for each class are confirmed by your payment. Fees are non-refundable, but the Museum will make every effort to find an alternative placement for a student in another session if cancellation occurs.

Please make sure your student is enrolled at least one week prior to the start date to help educators prepare for classes.

The Museum of Arts and Sciences, in Daytona Beach, is dedicated to its educational mission. The Museum reserves the right to modify or cancel programs, change tuition rates, or assume any responsibility for any activities which may occur in connection with them.
**Week 2: June 17-21**

**9am-12pm Animal Adventures**
- Explore the world of animals. Discover the amazing creatures that roam the world, from lions, tigers, and bears to giraffes, elephants, and pandas. Learn about the importance of wildlife conservation and how you can contribute to protecting these amazing animals.

**1pm-4pm Art, Science, and Nature**
- Learn about the world of art and science. Explore the Museum’s collection and create your own masterpieces.

**Week 3: June 24-28**

**9am-12pm Palaeontology Dinosaurs and Beyond**
- Discover the world of prehistoric life. Learn about the fascinating creatures that roamed the earth millions of years ago, and how they have evolved over time.

**1pm-4pm Arts and Crafts**
- Express your creativity through art. Learn about different artistic techniques and create your own masterpieces.

**Week 4: July 1-5**

**9am-12pm Science Rules**
- Learn about the scientific principles that govern our world. Explore the Museum’s collection and see how science works in the real world.

**1pm-4pm Mystery Space**
- Explore the world of space. Learn about the history of space travel and the planets beyond our solar system.

**Week 5: July 8-12**

**9am-12pm The Nature of Things**
- Discover the natural world around you. Learn about the importance of conservation and how we can protect the environment.

**1pm-4pm The Nature of Things**
- Learn about nature from the Museum’s extensive collection of living organisms. Explore the world of biology, ecology, and environmental science.

**Week 6: July 15-19**

**9am-12pm Chemistry with a Bang!**
- Explore the world of chemistry. Learn about the properties of matter and how they can be used to create amazing chemical reactions.

**1pm-4pm Chemistry with a Bang!**
- Learn about the fascinating world of chemistry. Explore the Museum’s collection and see how chemistry works in the real world.

**Week 7: July 22-26**

**9am-12pm Space Age**
- Learn about the history of space travel. Discover the amazing achievements of space exploration and how they have changed our view of the universe.

**1pm-4pm Space Age**
- Explore the world of space. Learn about the history of space travel and the planets beyond our solar system.

**Week 8: July 29-August 2**

**9am-12pm Science Sleuth**
- Use your detective skills to solve mysteries. Learn about the science behind forensic science and how it is used to solve crimes.

**1pm-4pm Science Sleuth**
- Learn about the importance of science in solving real-world problems. Explore the Museum’s collection and see how science works in the real world.
