Funky Art

Create art that is one-of-a-kind in this class that lets you explore the world of art. Tour the Museum's galleries and become inspired to paint, sculpt, draw, and construct unique pieces of beautiful art that would make Picasso himself proud.

1pm-4pm

I Want to Be A Scientist

Discover the world of physics, astronomy, and fossils and learn how science affects us in our every day lives. Work with electrical circuits, magnetics, robotics, and more! Discover the many hands-on science exhibits the Museum has to offer.

7, 8 and 9 Years Old

9am-12pm

Science Chaos

The Museum has over 100 interactive hands-on science kits that will teach your young scientist about sound, light, physics, astronomy, paleontology, and more. Conduct your own science experiments and visit the planetarium and children's museum.

1pm-4pm

Artrageous

Your imagination is the limit in this painting, printing, drawing, and construction class. Students will learn about portraits, landscapes, sculptures, and more! Create your own masterpieces using a variety of art media.

Please Note: Classes are dependent on having a minimum number of students enrolled.
